

Communications Committee Report-2/1/2023

The Communications Committee met on 1/24/2023. As a committee we discussed ways to support the efforts of Mr. Cantor, the Executive Director of Communications and Community Engagement and the District. The district is currently in the infancy stage of the website redesign and rebranding, they are currently deciding on a vendor so they can solidify the details of the proposal. The communications committee may support these efforts through reviewing and providing input on designs and any other requests from Mr. Cantor and Dr. Ponds. The committee engaged in a robust discussion about opportunities for communications capacity in the district.
